THE Carboro' Southerner.

Friday, : : : April 16, 1875 Looking for the Legislature. A PICTURE THAT MAY INTEREST OUR

EMBYRO STATESMEN.

Yesterday noon a man about 65 years of age came up stairs into the local room of this paper, and in-

'I. this whar the Legislastur is?' 'No, sir,' replied the reporter; the Legislature is in session at

'Way off there, ch!' continued the man, as he sat down, laid his cane across the table, and took off

'Yes, trains run twice a day. Pretty good crowd out there by this

new law!"

10,000 Gallons Molasses in Hogs his coat. 'My name's Horner, and | will ensue. I'm an old fool! What do you think I did three months ago? Went and married a girl 19 years old, red-headed at that! Yes, went and deeded her a farm, and gin her six

> 'And do not live happy?' 'Happy! Young man, let me show you sutbin'—here, look at

And he unrolled a piece of brown paper and displayed a kandful of gray hairs, some of which were bloodstained. 'Pulled right out of my scalp only

three days ago!' he went on. 'And see this 'ere leg!' He pulled up his pants and ex-hibited a black and blue spot just above the shin.

'Struck there with a flat-iron!' he explained; 'meant to hit me on the chist and killed me at once, but

revealed the fact that he had'n a shirt on, and, consequently, nothing on which to button a collar. 'Tore it off'n me two weeks ago! he whispered, 'and she burned up my other one. I've bin around this way for a fortnight, almost dying

'Well, she must be a regular wild- Arr cat,' said the reporter.

'Young man, if I war to sit here and tell ye how that woman conducts herself ye'd have to hold yer ha'r down! exclaimed the old man, striking his leg. 'No one knows have she's heaved flatsirons at me. striking his leg. 'No one knows how she's heaved flat-irons at me, hit me with clubs, throwed water over me in bed, pulled hair, jawed

'A cundurango, perhaps.' 'Wuss'n that, boy-far, far wuss; she called me an Apollo!' 'Possible!'

'Yes, she did! Think of that, will ye-think of a man of my age, who has always paid his debts and been honest, bein' set down with

as a long pause ensued. 'It's awful-the awfulest kind of awful!' replied Horner. 'I've got to stand it, but I want a law to pro-

tect other old men. I want a law to furbid any man over 60 from marryin' a girl who isn't over 20.' 'That might be a wise law.' 'I can't go to Lansin',' he went on, 'but you kin help me. Put it in your paper—git up an excitement about it, Will you do this? Look at me, boy—look me all over! See

how hot my head is!" 'I'll help you all I can,'
'Do! Write to him! Write to him five times a day! I'm goin' home to meet her, and be pounded around and sassed and jawed, but

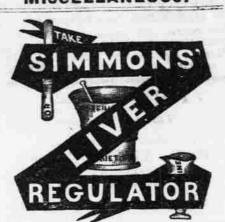

And he put on his mittens, took up his cane, and was gone .- Detroit Free Press.

We are sorry to learn that a Gering a firstrate brandy out of sawdust. We are a friend of the temperance movement, but what chance es out of the shingles on his roof, or embracing everything usually kept in a First if he can get delirium tremens by drinking the legs of his kitchen | Class Establishment of the kind. | Thankful for the liberal patronage of the past the undersigned asks a continuation, away from taverns, but if he can become uproarious on dessicated Orders for Parties & Balls window sills, an effort at reform must necessarily be a failure.

Dunn County, Tenn , News. A Boy's CHARITY .- 'Well, my son.' said a Detroit father to his eight-year-old son the other night, 'what have you done to-day that may be set down as a good deed?" '(iave a poor boy five cents,' replied the hopeful.

'Ah. ha! that was charity, and charity is always right. He was orphan boy, was he?" 'I didn't stop to ask,' replied the licking a boy who spit in my dinner

Soluble Pacific Guano,

Star Ammoniated Soluble Phosphate,

ORCHILLA GUANO, the consumer gets the greatest benefit from the smallest outlay. They have been used extensively by farmers throughout this section and prononneed genuine Guanos. They

are ahead of all others. READ THE FOLLOWING CERTIFICATES:

From J. J. Taylor. Toisnot, N. C., Oct. 25, 1874. Gents—I used the three tons of Star Phosphate purchashed from you under cotton, and beg leave to say that it has acted better on my land than any Fertilizer I have used in fifteen years. I am entirely satisfied with its results, and shall endeavor to induce my neigh-

Very truly, J. J. TAYLOR. From Hon. Mills L. Eure, Judge of the First District. Gatesville, N. C., Jan. 22, 1874. Gatesville, N. C., Jan. 22, 1874.

Gents—I used the Star Phosphate last year under cotton, applied as the manufacturers direct. The result was in the highest degree satisfactory. I also used a small quantity in corn, applied in July, when hilled, sowing the land at the same time in peas. In my opinion the yield both of corn and peas was nearly doubled by the Fertilizer. I think the Star Phosphate possesses great merit, and I shall continue to use it so long as its application gives such gratifying proofs of its intrinsic worth.

Yery truly yours,

From W. A. Blount,

Beaufort County, N. C., Dec. 29th, 1873.

Gentlemen-I take pleasure in recommending the Star Phosphate bought of you last season to all farmers, as a No. 1 Fertilizer. I consider it equal to any I ever used W. A. BLOUNT.

Thousands similar could be given if necessary. These excellent Fertilizers will be sold on very accommodating terms.

For 425 lbs. good Lint Cotton, on or before 1st December, will give 1 Ton of either of the above, including the Fish Guano, purchasers paying freights upon delivery of Guano.

# GUANO.

ORCHILLA GUANO.

A TRUE BIRD GUANO,

Soluble Ammoniated South Sea Guano.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Penna. at Philadelphia.

West Philadelphia, January 4th, 1875.

I have analyzed as follows:—1 sample of "Soluble Ammoniated South Sea Guano, prepared for Cotton by B. M. RHODES & CO., 82 South Street, Baltimore, 182 lbs.," which I found to contain— " equivalent to 943 per cent of Bone Phosphate of Lime

Soluble Phosphoric Acid, 4.32 " equ. Precipitated " 4.32 " Nitrogen, equivalent to 2.98 " Ann. Alkaline Salts, 8.20 " " " " Ammonia, 2-Sample of "Orchilla Guano, A. A., B., M. RHODBS & CO., Importers' Agents, 82 South Street, Baltimore, 167 lbs. Curacao," which I found to contain-Phosphoric Acid, - 26.86 per cent., equivalent to 58.64 per ct. of Bone Phosphate of Lime Alkaline Salts, - 4.30 " " Both samples were certified to have been taken, seried and to by Thos. Harris Hodges Notary Public, and were in perfect condition.

F. A. GENTH.

Notary Public, and were in perfect condition.

for use in its crude state, and after a careful and complete analysis, as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel per-fectly justified in recommending the Orchilla. W. P. TONRY, Prof. Anal. and App'ld Chemistry, Maryland Institute. The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline Salts, but more particulary for the phisical condition and texture in which Guano is

The Orchilla, which seems to be an organic doposit, can be recommended to the farmer

presented.

G. A. LIEBIG, Ph. D.

This material decidedly recommends itself to the attention of farmers by its large proportion of Phosphoric Acid, being in a form to be much more easily taken up by growing plants than that of the harder and more compact Mineral Phosphates. Farmers can themselves very easily add Peruvian Guano, Cotton Seed, Mill Refuse or other material affording Nitrogen when it is desired to combine the effort of Ammoniacal with that of Phosphatic Manure.

I am, gentlemen, respectfully yours,

J. W. MALLET. RALEIGH, N. C., January 229, 1875.
From the Analysis of Dr. Genth there is no doubt of the high per centage of Phosphate

of Lime in this Guano, and I endorse the recommendations of Prof. Mallett upon the above testimony of himself and Prof. Liebic & Tonky as to its physical condition that it offers a desirable source of Phosporic Acid to Cotton Farmers and others who have the means of furnishing the Nitrogenized matter at home.
